Registration & Setup Checklist

Philippines-first technology advisory platform — quiz, booking, payments, email, meetings, recordings.

Generated: May 30, 2026

1. Core platform (required for production)

Service	Purpose	Configure via
MongoDB Atlas	All persisted data	MONGODB_URI, MONGODB_DB_NAME
Hosting (Railway)	Next.js API + admin	NEXT_PUBLIC_APP_URL
Domain	Webhooks, emails, redirects	NEXT_PUBLIC_APP_URL

Server secrets (generate yourself):

- ADMIN_TOKEN — admin login (required in production)

-

PAYMENT_CREDENTIALS_MASTER_KEY (32+ chars) — Admin !' Payments

- EMAIL_CREDENTIALS_MASTER_KEY (32+ chars) — Admin !' Email

- MEETINGS_CREDENTIALS_MASTER_KEY (32+ chars) — Meetings + Fathom

- CRON_SECRET — optional; protects POST /api/cron/payment-holds

Scheduler: Railway Cron running: `pnpm --filter web cron:payment-holds`

2. Payment gateways (pick one or more)

Supported: PayMongo, Xendit, HitPay, PayPal

Gateway	Webhook URL
PayMongo	{APP_URL}/api/webhooks/paymongo
Xendit	{APP_URL}/api/webhooks/xendit
HitPay	{APP_URL}/api/webhooks/hitpay
PayPal	{APP_URL}/api/webhooks/paypal

Admin !' Settings !' Payments credential fields:

- PayMongo: secretKey, secretKeyTest (optional), webhookSecret
- Xendit: secretKey, webhookToken
- HitPay: apiKey, apiKeyTest (optional), salt
- PayPal: clientId, clientSecret

3. Transactional email (pick one)

Provider	Register	Admin fields
Resend	Account + verified domain	apiKey, from
Postmark	Server + verified domain	serverToken, from
SendGrid	Account + verified sender	apiKey, from

Env fallback (Resend only): RESEND_API_KEY + EMAIL_FROM when active provider is None.

Optional: BOOKING_CONFIRMATION_BCC, EMAIL_SANDBOX_TO (sandbox mode).

Emails: booking confirmation, payment reminder, Fathom notes, support notifications.

4. Video meetings (one active provider)

Provider	Register	Key admin fields
Zoom	Server-to-Server OAuth app	accountId, clientId, clientSecret, hostUserId
Google Meet	Google Cloud + Calendar API + OAuth	clientId, clientSecret, refreshToken
Microsoft Teams	Azure AD app + admin consent	tenantId, clientId, clientSecret, organizerUserId

Only the active provider in Admin !' Meetings creates links for paid bookings.

See docs/google-meet-oauth-setup.md for Google Meet OAuth steps.

5. Consultation recordings (Fathom)

- Fathom account — connect Zoom/Meet/Teams; enable visible notetaker
- API key from User Settings !' API Access
- Webhook: {APP_URL}/api/webhooks/fathom
- Admin fields: apiKey, webhookSecret, hostEmail

See docs/fathom-setup.md for full setup.

6. AI — OpenAI (optional)

- OPENAI_API_KEY — required for diagnostic rounds and admin advisor
- OPENAI_DIAGNOSTIC_MODEL (default gpt-4o-mini)
- OPENAI_ADVISOR_MODEL (default gpt-4.1)
- Semantic cache: Atlas Vector Search + DIAGNOSTIC_CACHE_VECTOR_INDEX_NAME

7. Analytics

- Google Analytics 4 !' NEXT_PUBLIC_GA_MEASUREMENT_ID (loads after cookie consent)

8. Support reports

- Admin !' Settings !' Support notification emails
- Env fallback: SUPPORT_REPORT_TO

9. Customer accounts

Built-in email/password auth in MongoDB. No Clerk or Auth0 required.

10. Native app (Expo)

- Apple Developer Program — EXPO_PUBLIC_IOS_BUNDLE_ID
- Google Play Console — EXPO_PUBLIC_ANDROID_PACKAGE
- EXPO_PUBLIC_API_BASE_URL != deployed web API

11. CMS / legal

- Blog managed in Admin != Blog (MongoDB)
- Optional: PRIVACY_POLICY_BLOG_POST_ID, TERMS_OF_USE_BLOG_POST_ID

. Admin Settings quick reference

Tab	External services
General	Brand name (database only)
Pricing	None
Payments	PayMongo / Xendit / HitPay / PayPal
Email	Resend / Postmark / SendGrid
Support	Email provider (same as above)
Meetings	Zoom / Google Cloud / Microsoft Entra
Recordings	Fathom

Recommended go-live order

- 1. Atlas + hosting + NEXT_PUBLIC_APP_URL + master keys + ADMIN_TOKEN
- 2. One payment gateway + webhooks + Payments settings + payment-holds cron
- 3. One email provider + verified domain + Email settings
- 4. One meeting provider + test booking end-to-end
- 5. OpenAI for live diagnostics and advisor chat
- 6. GA4 for marketing analytics
- 7. Fathom if offering recording opt-in
- 8. App Store / Play Store for native builds
