

TeqMD

Provider Costing Reference

Pricing summary for CDN, database, payments, email, video meetings, AI note-taking, OpenAI, and marketing analytics.

Generated: May 31, 2026 • Prices are indicative — verify on each provider site before budgeting.

Executive summary — typical TeqMD stack

Provider	Role	Typical monthly cost
Cloudflare	CDN, DNS, SSL, WAF	\$0 (Free) – \$20 (Pro)
MongoDB Atlas	Database	\$0 (M0) – \$30 (Flex) – \$57+ (M10)
PayMongo	Payment gateway (PH)	Pay-per-transaction only
Resend	Transactional email	\$0 – \$20
Google Meet	Video meetings (via Workspace)	\$7 – \$22 / user
Fathom AI	Meeting recordings & notes	\$0 – \$20 / user
OpenAI	Diagnostic & advisor AI	Usage-based (~\$5 – \$50+)
Google Analytics 4	Marketing analytics	\$0

Estimated monthly totals (excluding payment fees & OpenAI usage)

Scenario	Assumptions	Est. fixed monthly
MVP / dev	Free tiers + 1 Meet user + Fathom Free	\$0 – \$7
Small launch	Atlas Flex, Resend Pro, 2 Meet users, Fathom Premium	~\$60 – \$90 + transactions
Growing ops	Atlas M10, Cloudflare Pro, 5 Meet users, Fathom Team (2+)	~\$200 – \$350 + transactions

1. Cloudflare — CDN, security & analytics

Website: <https://www.cloudflare.com/>

Plan	Monthly price	Highlights
Free	\$0	CDN, DNS, Universal SSL, basic DDoS protection
Pro	\$20/mo (annual) or \$25/mo	Advanced WAF, more rules, enhanced analytics, image optimization
Business	\$200/mo (annual) or \$250/mo	100% uptime SLA, custom SSL, 24/7 email support, advanced bot mitigation
Enterprise	Custom	Dedicated support, custom contracts, advanced security bundles

Common add-ons

- Argo Smart Routing — from \$5/mo
- Load Balancing — from \$5/mo
- Rate Limiting — usage-based
- Log Explorer — \$1/GB ingested (first 10 GB free)
- Web Analytics — included on all plans (privacy-friendly, no cookie banner required for CF analytics)

Recommendation for TeqMD: Free tier is sufficient at launch; upgrade to Pro (\$20/mo) if you need advanced WAF rules or deeper CDN analytics.

2. MongoDB Atlas — database

Website: <https://www.mongodb.com/pricing>

Tier	Monthly price	Specs / notes
M0 (Free)	\$0 forever	512 MB storage, shared resources, 100 ops/sec — good for dev
Flex	\$8 – \$30/mo (capped)	5 GB storage, 100–500 ops/sec burst, includes Vector Search
M10 (Dedicated)	~\$57/mo	2 GB RAM, 10 GB storage — small production baseline
M30	~\$210/mo	8 GB RAM, 40 GB — recommended production baseline
M40+	\$390+/mo	Mid-size to enterprise workloads

Flex tier breakdown (usage-based, capped at \$30/mo)

Throughput	Monthly cost
0 – 100 ops/sec (base)	\$8
100 – 200 ops/sec	\$15
200 – 300 ops/sec	\$21
300 – 400 ops/sec	\$26
400 – 500 ops/sec	\$30 (max)

Recommendation for TeqMD: M0 for development; Flex (\$8–30) or M10 (~\$57) for production depending on traffic and Vector Search needs.

3. PayMongo — payment gateway (Philippines)

Website: <https://www.paymongo.com/pricing> • All rates exclusive of 12% VAT

Standard checkout: no setup fee, no monthly platform fee. Pay only per successful transaction.

Payment method	Fee
Cards (Visa/Mastercard, local)	3.125% + ±13.39 per transaction
Cards (international)	4.02% + ±13.39 per transaction
GCash	2.23%
Maya	1.79%
GrabPay	1.96%
ShopeePay / SPayLater / MariBank	1.70%
QR Ph (online & in-store)	1.34%
Direct online banking (BDO, UBP, BPI, etc.)	0.71% or ±13.39 (whichever is higher)
BillEase BNPL	1.34%

Example transaction costs (excluding VAT)

Amount	Card (local)	GCash	QR Ph
±1,000	±44.64	±22.30	±13.40
±5,000	±169.64	±111.50	±67.00
±10,000	±325.89	±223.00	±134.00

Optional extras (not required for standard checkout)

- Instant settlement — up to 2% (QR/bank) or 3% (cards/BNPL)
- Payouts / disbursements — ±10 per InstaPay/PesoNET transfer
- PayMongo Protect (fraud) — ±120,000/mo platform + per-screen fee
- Storefront AI builder — ±349/mo (separate product)

4. Resend — transactional email

Website: <https://resend.com/pricing>

Plan	Price	Volume	Overage
Free	\$0/mo	3,000 emails/mo (100/day max)	Not available
Pro	\$20/mo	50,000 emails/mo	\$0.90 / 1,000
Pro	\$35/mo	100,000 emails/mo	\$0.90 / 1,000
Scale	\$90/mo	100,000 emails/mo	\$0.90 / 1,000
Scale	\$350/mo	500,000 emails/mo	\$0.70 / 1,000
Enterprise	Custom	3M+ emails/mo	Custom

Marketing email (contact-based, separate product)

Plan	Price	Contacts
Free	\$0/mo	1,000 contacts
Pro Marketing	\$40/mo	5,000 contacts
Pro Marketing	\$250/mo	50,000 contacts

- Dedicated IP add-on — \$30/mo (Scale plan, 500+ emails/day)
- Automation runs — 10,000/mo included; \$0.0015 per run overage on paid plans

Recommendation for TeqMD: Free tier covers early booking confirmations; Pro (\$20/mo) when exceeding 3,000 emails/month.

5. Google Meet — video meetings

Website: <https://meet.google.com/> • Business features require Google Workspace (not sold separately).

Pricing effective March 2025 (Gemini AI included in paid plans).

Plan	Annual billing	Flexible (monthly)	Meet limits
Free (personal)	\$0	\$0	100 participants, 60 min (group calls)
Business Starter	\$7/user/mo	\$8.40/user/mo	100 participants, 24 hr, dial-in
Business Standard	\$14/user/mo	\$16.80/user/mo	150 participants, recording, breakout rooms
Business Plus	\$22/user/mo	\$26.40/user/mo	500 participants, attendance tracking, Vault
Enterprise	Custom	Custom	1,000 participants, live streaming, DLP

Google Meet API integration (Calendar API + OAuth) uses the same Workspace account — no separate Meet API fee.

Recommendation for TeqMD: Business Starter (\$7/user/mo) for 1–2 hosts; Standard (\$14) if you need meeting recordings natively in Google (Fathom provides separate recording).

6. Fathom AI — meeting note taker & recordings

Website: <https://www.fathom.ai/pricing>

Chrome extension: <https://chromewebstore.google.com/detail/fathom-ai-note-taker-for/nhocmlminaplaendbabmoemehbpgdemn>

The Chrome extension is free — it is a companion to the Fathom desktop/web app. Pricing is per Fathom account, not per extension install.

Plan	Monthly	Annual (per mo)	Min users	Key features
Free	\$0	\$0	1	Unlimited recordings & transcription; limited advanced AI summaries
Premium	\$20/user	\$16/user	1	Unlimited AI summaries, action items, Ask Fathom
Team	\$19/user	\$15/user	2	SSO, team search, keyword alerts, shared playlists
Business	\$34/user	\$25/user	2	CRM field sync, Deal View, coaching metrics

Team cost examples (annual billing)

Team size	Team plan/mo	Business plan/mo
2 users	\$30	\$50
5 users	\$75	\$125
10 users	\$150	\$250

Recommendation for TeqMD: Free tier for testing; Premium (\$16/user/mo annual) for solo consultants; Team if multiple staff need shared call libraries.

7. OpenAI — AI models (diagnostic & advisor)

Website: <https://openai.com/api/pricing> • Pay-as-you-go per token; no monthly platform fee.

Models relevant to TeqMD (from apps/web defaults)

Model	Input / 1M tokens	Output / 1M tokens	Use case
gpt-4o-mini	\$0.15	\$0.60	Guided diagnostic rounds (default)
gpt-4.1	\$2.00	\$8.00	Admin advisor chat (default)
gpt-4.1-mini	\$0.40	\$1.60	Lower-cost alternative
gpt-4.1-nano	\$0.10	\$0.40	Cheapest OpenAI option
gpt-5.4 mini	\$0.75	\$4.50	Newer mini model
gpt-5 nano	\$0.05	\$0.40	Lowest-cost GPT-5 family

Usage cost examples (gpt-4o-mini diagnostic)

Monthly diagnostic sessions	Est. tokens/session	Est. monthly cost
100 sessions	~2,000 in + 1,000 out	~\$0.09
1,000 sessions	~2,000 in + 1,000 out	~\$0.90
10,000 sessions	~2,000 in + 1,000 out	~\$9.00

Cached input tokens are discounted up

to 90% on supported models. Batch API saves 50% for non-real-time workloads. Recommendation for TeqMD: Budget \$5–20/mo at launch with gpt-4o-mini; scale with traffic. Enable OpenAI billing alerts.

8. Google Analytics 4 — marketing analytics

Website: <https://developers.google.com/analytics> • Property setup: <https://analytics.google.com/>

Edition	Price	Best for
GA4 (Standard)	\$0	Small to mid-size businesses — full core analytics
GA4 360 (Enterprise)	From ~\$50,000/year	High-volume enterprises (25M+ events/mo, SLA, BigQuery SLAs)

GA4 Free tier limits (typical)

- Up to 10 million events per month (most SMBs never hit this)
- 500 distinct event types, 50 custom dimensions, 50 custom metrics
- BigQuery export: up to 1 million events/day free

Potential indirect costs (optional)

- BigQuery storage & queries beyond free tier — pay-as-you-go via Google Cloud
- Google Analytics 360 — contract-based, typically \$50K–\$175K/year for mid-market

Recommendation for TeqMD: GA4 Standard (\$0) with NEXT_PUBLIC_GA_MEASUREMENT_ID — sufficient for marketing funnel tracking.

9. Combined budget worksheet

Line item	Conservative (MVP)	Small business	Notes
Cloudflare	\$0	\$20	Free !' Pro when needed
MongoDB Atlas	\$8	\$57	Flex base !' M10 production
PayMongo	Variable	Variable	3.125% + ±13.39 per card txn (+ VAT)
Resend	\$0	\$20	Free !' Pro at 3K+ emails/mo
Google Workspace (Meet)	\$7	\$28	1 user !' 2 users on Starter
Fathom	\$0	\$16	Free !' Premium (1 user)
OpenAI	\$5	\$20	Usage estimate
Google Analytics	\$0	\$0	Always free for standard GA4
Fixed subtotal	~\$20/mo	~\$161/mo	Excludes hosting, domain, txn fees

Sources & disclaimer

Pricing compiled from official provider pages on May 31, 2026. Exchange rate for PHP estimates not applied to USD items. Payment gateway fees exclude 12% VAT. Google Workspace and Fathom offer ~15–22% discounts on annual billing. Always confirm current rates before procurement.
